Super Cheap Auto Group (SUL) Update on 2nd Half Trading Performance

In a presentation today at the Macquarie Securities 2008 Australian Emerging Leaders Conference, the Managing Director of Super Cheap Auto Group Limited, Mr. Peter Birtles, will provide an update on 2nd half trading performance.

Like for like sales growth in the two businesses for the 18 weeks to 3 May are as follows:

Supercheap Auto	6%
BCF	5%

Mr. Birtles said the trading performance so far this half has been very pleasing in what are more challenging retail conditions.

“Supercheap Auto continues to perform very well benefiting from the ongoing investment in refurbishing stores, ranging initiatives and an increased focus on driving units per transaction across the business. After a more challenging January and February due to adverse weather conditions on the East Coast, BCF has rebounded strongly in March and April.”

A copy of the slides to be used in Mr. Birtles presentation has also been lodged with the ASX.
